INTERPROFESSIONAL WORKSHOPS

11:00 AM - 12:00 PM

234 Wellman Hall
Exploring a Global Healthcare Network of 4 Million Beneficiaries
A panel discussion provided by the United States Army Medical Department with Emergency Medicine Physician, Captain Joshua Elder; Doctor of Veterinary Medicine, Major Cynthia Facciolla; Surgical Resident Major Samuel Tahk; Family Practice Physician, Lt. Colonel Oliver Lau; Surgeon, Colonel (R) Salvador Renteria. Sponsored by US Army.

1001 Giedt Hall
Exploring Health Careers: Guess That Health Profession!
So you want to work in healthcare but you aren’t 100% sure which field? This interactive workshop will include a panel of various health professionals and allow the audience to guess who does what. This is a great way to learn about a variety of fields in a fun and engaging way!

1204 Haring Hall
How Future Health Professionals Can Fight for Healthcare Justice
William Skeen, MD MPH, California Health Professional Student Alliance (CaHPSA)
An introduction to the financing of our healthcare system and how it contributes to unequal access and outcomes. Learn how you can develop the leadership skills to be advocates for change.

179 Chemistry Building
Long View Career Planning: Choosing the Right Health Career
Martin MacDowell, DrPH, MBA, Research Professor and Associate Director at University of Illinois at Rockford Colleges of Medicine and Pharmacy
This workshop will discuss the importance of thinking early about what you are seeking from your health career choices and how a variety of factors including degree choices, schools you attend, jobs you take, and networking, influence you achieving your self-defined “career success.” Examples from medicine, pharmacy, and health services administration will be provided.

1322 Storer Hall
Leadership in Healthcare Panel
Lars Berglund, MD, PhD, Interim Dean at the UC Davis School of Medicine
Heather M. Young, PhD., RN, Associate Vice Chancellor for Nursing & Dean and Professor at Betty Irene Moore School of Nursing
Do you have aspirations of becoming a leader in healthcare? Don’t miss this workshop! This is your chance to hear two professionals’ paths to becoming leaders in healthcare!

202 Wellman Hall
Setting Yourself Apart in the Health Professions Field: Why Online Degrees Make Sense
Beth Lindsay, Manager of Enrollment Services at Berkeley Resource Center for Online Education at UC Berkeley
Among the 118 U.S. News ranked medical schools, the average acceptance rate for 2016 was just 5.8%. No matter what area of the health professions field you’re interested in pursuing, once you have your bachelor’s degree in hand it’s imperative to set yourself apart from the crowd. Whether you intend to apply for a job or are considering graduate school, how can you strengthen your resume? This session will make the case for online graduate degrees as the most efficient way to learn new skills while simultaneously building your career.

1227 Haring Hall
Undocumented Student Guide to Health Professions Schools
Erick Leyva, Program Manager at Pre-Health Dreamers
This workshop will uncover how to navigate through health careers as an undocumented student. We will provide information on national and state policies that promote education for undocumented students, how to finance an undergraduate education, how to build yourself professionally through volunteer and internship experiences, and outline best practices in applying to health professional schools.

3 Kleiber Hall
Women in Healthcare Panel
Eliza Lo Chin, MD, MPH, Executive Director of American Medical Women’s Association
Tiffany Kreys, PharmD, Assistant Dean of Student Affairs and Admissions and Assistant Professor of Pharmacy Practice at California Northstate University College of Pharmacy
While there has been an increase in women entering the healthcare field, those represented in leadership positions are still few. In this panel, you will hear from accomplished women who have taken different paths to join the healthcare industry. Listen to their stories about their professional upcomings and learn about the obstacles they have had to overcome. There will also be an opportunity to participate in a Q&A segment at the end.
3 Kleiber Hall

**The Diabetic Team: Medicine, Optometry, Pharmacy, & Public Health**

Lorena Garcia, MPH, PhD, Associate Professor of Epidemiology at UC Davis School of Medicine Dept. of Public Health Sciences  
Harry Green, OD, PhD, Assistant Clinical Professor at UC Berkeley School of Optometry  
Sonal Phatak, MD, Assistant Professor at UC Davis School of Medicine  
Greg Tovamassian, DPM, Podiatric Physician at Sacramento Foot and Ankle Center  
Clipper Young, PharmD, Assistant Professor at Touro University College of Medicine

Interested in learning more about one of the most pertinent diseases in society today? Diabetes affects many people, young and old. The foundation of basic science knowledge is necessary to properly and holistically treat diabetic patients that exhibit symptoms in multiple specialties. The diabetic team plays a collaborative and integrative role in prevention and comprehensive management of diabetes. Come learn about how each of these specialties intertwine to best treat diabetic patients.

1227 Haring Hall

**Financing Health Professions School**

LaNia Bussey, Program Officer at Health Professions Education Foundation  
Ashley Owens, Program Officer at Health Professions Education Foundation

Health professional schools can be expensive, but there are many ways to finance your education. Come hear from representatives from Health Professions Education Foundation (HPEF) about options for navigating graduate and professional school expenses.

1:30 - 2:30 PM

Kleiber Hall 3

**Understanding Social Determinants of Health**

Kupiri W. Ackerman-Barger, PhD, RN, Assistant Clinical Professor & Co-Director for the Interprofessional Teaching Scholars Program at the UC Davis Betty Irene Moore School of Nursing

Social determinants of health include the environments where individuals live and grow and the numerous ways that political, social, and economic policies construct these environments, and thus shape overall health status. By shaping our access to affordable education, nutritious foods, medical care, and health care resources, social determinants of health actively shape our safety, health risks, quality-of-life, and overall well-being. Come learn about the various ways in which social status and health status are deeply interconnected and why understanding these disparities is important for all health care professionals.

202 Wellman Hall

**Post-Bacc Programs Panel**

Susan Muironey, PhD, Professor & Director of Special Master’s Program at Georgetown University  
Elba Muñoz, Assistant Director of Post-Baccalaureate Premedical Certificate Program at Keck Graduate Institute  
Rachel Small, Co-Director of Pre-Health Post-Bac Program at SFSU

If you’re looking to take post-baccalaureate courses before applying to a health professional school, it’s important to choose the program that’s designed just for you. Hear representatives from a variety of post-bacc programs describe what makes their program unique and what to look for in these programs.

2:45 - 3:45 PM

216 Wellman Hall

Application Horror Stories
Robin Johnson, Assistant Director for the Office of University Recruitment and Strategic Enrollment Management at Western University of Health Sciences

Learn about the do's and don'ts when applying for health professions programs. We’re going to tell you stories of mistakes others have made so you can avoid them! This workshop will cover everything from application don'ts to interview “no-no’s.”

Sponsored by Western University of Health Sciences.

3 Kleiber Hall

Diversity and Teamwork in the Healthcare Workforce
David Gordon, MD, Dean for the School of Health Professions and Studies at University of Michigan Medical School

This workshop will discuss both the benefits and hurdles in developing truly diverse healthcare teams, ones that include multiple professions as well as multiple racial, ethnic, and cultural backgrounds. Dr. Gordon will also discuss how diverse healthcare teams improve the health of the people healthcare serves, particularly underserved and disadvantaged populations.

1003 Giedt Hall

Health Entrepreneurship
Karen Runde, Program Manager at Miller Center for Social Entrepreneurship
Marie Haller, GSBI Program Manager at Miller Center for Social Entrepreneurship

What is social entrepreneurship and how does it relate to health care? Learn more about how students can be an entrepreneur while pursuing their passion for health.

179 Chemistry Building

Immigrant Access to Healthcare
Heike Thiel De Bocanegra, MPH, PhD, Associate Professor at UCSF Bixby Center for Global Reproductive Health, Director of Family Planning Research Program at UC Irvine, Volunteer Associate Clinical Professor at UC Davis Dept. of Public Health Sciences

Professionals knowledgeable in healthcare will discuss all the different ways healthcare is accessible to immigrants.

1344 Storer Hall

Stress Reduction for Students: How to Create Your Own Personal Happiness
JoAnn Yanez, ND, MPH, Executive Director of Association of Accredited Naturopathic Medical Colleges (AANMC)

Stress, anxiety and depression account for approximately 20% of workplace illness. However with a few tips, we can master our stress or at a minimum mitigate our stress response. Learn how to harness the power of the mind to make the most of your health and wellbeing.

230 Wellman Hall

Writing Your Personal Statement
Nancy Schwartz, PhD, Professor at University of Chicago Biomedical Sciences
Nancy Street, PhD, Associate Dean & Assistant Professor at UT Southwestern Graduate School

The personal statement is a critical piece of your application to graduate or health professional schools - it’s your opportunity to present yourself as an interesting and unique applicant who deserves a closer look. Come to this workshop to learn from professionals how to craft and effective personal statement.
Don’t miss the Networking Reception!
Join health professionals from a variety of fields and admissions representatives for a relaxed conversation. Don’t forget to ask for business cards!
ARC Pavilion 4 - 5 p.m.

CHIROPRACTIC WORKSHOPS

1342 Storer Hall
Chiropractic: Myths & Misconceptions
Gregory Snow, DC, Dean of Clinics at Palmer College of Chiropractic
Chiropractic is the third largest primary health care profession in the United States, yet myths and misconceptions persist around its scientific foundation, effectiveness, safety and educational requirements. In this interactive, engaging workshop, you’ll get the opportunity to test your knowledge regarding the practice of chiropractic while we separate fact from fiction. Learn what it means to be a doctor of chiropractic in 2017, and how a career as a doctor of chiropractic might be a great fit for you.

2:45 - 3:45 PM

234 Wellman Hall
How to Become a Certified Nutritionist, Athletic Team Chiropractor or a Team Psychologist
The University of Western States will talk about the basic requirements for becoming a Certified Nutritionist in Functional Medicine, Athletic Team Chiropractor or a Team Psychologist. Come join our workshop where we’ll review the academic requirements and certifications necessary to enter into these highly specialized fields.
Sponsored by University of Western States.

CLINICAL LAB SCIENCES WORKSHOPS

1342 Storer
Exploring Clinical Lab Sciences (CLS) Panel
Stephanie Ng, Clinical Laboratory Scientist at UCSF
Laurianne T. Mullinax, Clinical Laboratory Scientist at University of Washington, Seattle
Come learn about a unique career path that enables you to analyze various specimen in laboratories and whose work is very important to doctors and their patients from a panel of Clinical Lab Scientists with different experiences and backgrounds!

GENETIC COUNSELING WORKSHOPS

1342 Storer Hall
Exploring Genetic Counseling
Kimberly Barr, MS, LCGC, Genetic Counselor at Kaiser Permanente
Genetic counselors combine the science of genetics and the counseling field to help patients make life-altering decisions. Come learn about this competitive, growing healthcare field from a practicing genetic counselor!

Don’t miss the Networking Reception!
Join health professionals from a variety of fields and admissions representatives for a relaxed conversation. Don’t forget to ask for business cards!
ARC Pavilion 4 - 5 p.m.
DENTISTRY WORKSHOPS

11:00 AM - 12:00 PM

226 Wellman Hall
Dentistry Admissions Panel
Mert Aksu, DDS, JD, Dean of the University of Detroit Mercy School of Dentistry
Stan Constantino, Director of Admissions & Diversity at University of the Pacific Arthur A. Dugoni School of Dentistry
Brennan Crilly, Outreach Coordinator at UCSF School of Dentistry
William Harman, PhD, Associate Dean & Professor at Roseman University of Health Sciences
Jeffrey Turchi, DDS, Assistant Professor and Manager of Admissions & Recruitment at Western University of Health Sciences

Are you prepared to apply to dental school? Learn what dental schools require for applicants (beyond metrics) from admissions representatives themselves. Panelists will discuss pre-dental experiences, letters of recommendation, interviews, and more!

12:15 - 1:15 PM

226 Wellman Hall
Research in Dentistry
Mert Aksu, DDS, JD, Dean of the University of Detroit Mercy School of Dentistry
Amanda Arriaran, Dental Student at Columbia University College of Dental Medicine
Thomas Lang, PhD, Associate Dean of Research at UCSF School of Dentistry
Soroush Ghaffarpour, Dental Student at University of the Pacific Arthur A. Dugoni School of Dentistry

How does research fit into the field of dentistry? Join representatives from various dental schools and dentistry students for this panel about DMD-PhD / DDS-PhD programs and tackling navigating research in dental school.

1:30 - 2:30 PM

226 Wellman Hall
Exploring Dentistry Professions
Alice Tai, DDS (Periodontist), Ann Marie Gorczyca, DDS, MPH, MS (Orthodontist), William B. Carroll, BS, DDS, FACD, FICD, FAGD, ABGF
James Childress, DDS (General Dentist)

Explore the different careers paths dentistry has to offer! From specializing or opening a private practice, working under another dentist, doing research or teaching, walk away from this workshop with a better understanding of what a dentist is capable of doing with a DDS or DMD degree.

1:30 - 2:30 PM

1277 Haring
Enhancing Your Dental School Application
Theresa Davies, PhD, Director of the Masters of Oral Health Sciences Program at Boston University

Pre-dental students who are exploring ways to improve their applications over a gap year should come learn about opportunities for academic enhancement. Tips for preparing applications and timelines will be shared.

2:45 - 3:45 PM

226 Wellman Hall
The Tooth and Nothing but the Tooth...Or is It?
Michael Lopez, DDS, UCSF

We want to help improve access to care and to be happy. How do we do that? UCSF dental students will share their path to admission, what they have learned along the way, and what it is like to be in dental school. We will hear how they have dealt with the cost of dental education, how relationships with other students has helped them throughout the process, and we will try to answer any questions you bring with you.

119 Wellman Hall
Financing Your Dental Education
Sergeant Daniel Brandt, Recruiter for the US Air Force

So you want to be a dentist, but have you considered how to finance your dental education? One option may be through the Dental Corp Health Professions Scholarship Program (DC HPSP). We will lay out the financial assistance, active duty requirements, and have an Air Force Dentist speak to their own experience. Come listen in from the an Air Force Health Professions recruiter and Air Force Dentist to hear first hand what your debt-free future may entail!
YOUR SUCCESS BEGINS WITH OUR SCHOLARSHIP

Choose a health care career that sets you apart from your peers with the U.S. Army Health Professions Scholarship Program. Qualifying medical students may be eligible for:

* Full-tuition at an accredited medical school
* Reimbursement for books and equipment
* $20,000 sign-on bonus
* $2,200 monthly stipend

To learn about the HPSP Program, speak with an Army medical physician at the Army Medical Recruiting booth or visit healthcare.goarmy.com/ip97. Check your 2017 Program Guide for times and locations of scheduled Army speaking engagements and hands-on clinics.
MEDICINE WORKSHOPS

11:00 AM - 12:00 PM

7 Wellman Hall
**BNGAP Series: Diversity & Inclusion in the Academic Workforce and Academic Career Roles & Responsibilities**
Edward Callahan, PhD, University of California, Davis Health System, Associate Vice Chancellor Emeritus for Academic Personnel
Hendry Ton, MD, MS, University of California, Davis Health System, Associate Vice Chancellor for Equity, Diversity, and Inclusion for the Schools of Human Health Science. Educate yourselves about the roles of academic medicine, how to encourage diversity and inclusion, awareness of career trajectory and how to align personal interests with academic goals.

1001 Giedt Hall
**Exploring Health Careers: Guess That Health Profession!**
So you want to work in healthcare but you aren’t 100% sure which field? This interactive workshop will include a panel of various health professionals and allow the audience to guess who does what. This is a great way to learn about a variety of fields in a fun and engaging way!

123 Sciences Lecture Hall
**Exploring Paths to Medicine: MD & DO**
Arnold Almonte, DO, Plastic Surgeon at Almonte Center for Facial Cosmetic Surgery, Rino Dizon, DO, Family Physician at Kaiser Permanent, Barton Wise MD, FACP, Assistant Professor of Medicine at UC Davis School of Medicine
A Doctor of Medicine (MD) and a Doctor of Osteopathic Medicine (DO) both lead to fulfilling careers in medicine, but what are the differences between the two? If you’re trying to determine the difference between an MD and a DO, this panel of physicians will explore the differences between the two professional degrees.

1022 Life Sciences
**How Being A Purple Cow Can Get You Into The School Of Your Dreams**
Mark Chavez, MD, Entrepreneur and Physician
As an admissions committee member at the David Geffen School of Medicine at UCLA, Mark Chavez has learned how important it is to make yourself stand out from the crowd. This workshop will provide pre-health students with valuable strategies, techniques and proven methods that increase their chances of being accepted into the school of their dreams, for being a successful healthcare practitioner and for achieving success in other areas of their life.

1322 Storer Hall
**Leadership in Healthcare Panel**
Lars Berglund, MD, PhD, Interim Dean at the UC Davis School of Medicine, Heather M. Young, PhD, RN, Associate Vice Chancel-

1344 Storer
**How to Ace a Medical School Interview**
Sahil Mehta, MD, Interventional Radiologist, Faculty at Harvard Medical School and Founder MedSchoolCoach
The medical school interview is one of the final aspects of the application process. The interview can determine if you are accepted or rejected to medical school. Join MedSchoolCoach advisor Dr. Mehta for an engaging and interactive interview preparation session! After serving on admission committees, reviewing hundreds of applications, and interviewing potential medical students- we will provide exclusive tips and strategies to ace your medical school interview! In this session we will cover how to answer common questions in both traditional style interviews and the Multiple Mini Interview (MMI). We can help you develop your responses so your personality and unique qualities shine through! The importance of the interview and adequate preparation cannot be understated, so take the opportunity to join experts in medical school admissions to help you succeed on the interview day!

26 Wellman Hall
**Top 6 MCAT Myths Debunked**
Petros Minasi, Author at Med School Pulse & Director of Pre-Health Programs at Kaplan Test Prep
You’ve heard lots of things about the MCAT, but not everything you’ve heard is true. Join this session and learn the top 6 myths of the MCAT so you don’t get tricked! Kaplan’s MCAT experts will debunk these myths and provide guidance on avoiding the most common pitfalls. You’ll leave this session with a robust plan for MCAT success.

1 Wellman Hall
**The Medical School Interview Process**
Judith Ned, EdD, Assistant Dean and Director of Office of Medical Degree Admissions at Stanford University School of Medicine
Are you looking to learn more about the Interview Process when applying to Medical School? Join Stanford University’s Dr. Judith Ned at this valuable workshop to learn about how to prepare for your interview day and present yourself to the school of your dreams.

**Careers in Anesthesiology**

*Gerald Dubowitz, MD, Associate Professor & Attending Anesthesiologist at UCSF School of Medicine*

If you are interested in learning more about anesthesiology, this is the workshop for you! Come learn about the anesthesiology field and the different anesthesiology career paths that you can pursue!

212 Wellman Hall

**Secrets to Success in Medical School**

*Eric Wilson, MD, Sports Medicine Physician*

*Mickey Sachdeva, MD, Pulmonary Critical Care Fellow & Internal Medicine Physician at University of San Francisco – Fresno*

*Shahzeb Shaheen, 4th Year Clinical Student at Ross University School of Medicine*

Getting into medical school is only the beginning. Succeeding at medical school is a different story. Don’t worry: we’re here to help. Learn the secrets to medical school success at our workshop, where medical professionals will share what helped them manage the huge amount of material, discuss tips that helped them pass national licensing exams, and much more. The goal? To give you the insight you’ll need to understand your own medical school success strategy. Don’t miss out!

*Sponsored by Ross University School of Medicine.*

126 Wellman Hall

**Preparing & Strengthening Your AACOMAS Application**

Are you planning to apply to osteopathic medical schools? Do you have questions about how to strengthen your application? This session will help you prepare by reviewing the essential elements of the AACOMAS application. Get tips on writing an effective personal statement, obtaining quality letters of recommendation, highlighting extracurricular activities and clinical experience, and more! Attendees will also have the opportunity to hear a brief overview of the profession.

*Sponsored by American Association of Colleges of Osteopathic Medicine.*

12:15 - 1:15 PM

**Visit the Pre-Health Fair**

To speak to representatives from allopathic, osteopathic, naturopathic and podiatric medical schools & post-bac programs from across the country!

**Hutchison Field 10 a.m. - 4 p.m.**

**Wellman 1**

**Acing the Interview**

*Edwing Daniel, PhD, Assistant Dean of Admissions at University of South Florida Morsani College of Medicine*

You’ve gotten an interview invitation from a medical school - now what? Come to this workshop to learn about how to present yourself to the school of your dreams. Hear some sample interview questions and learn new interviewing strategies to help you both present your qualifications and stand out from other applicants.
Allopathic Medicine (MD) Admissions Panel

Glen Fogerty, PhD, Interim Assistant Dean of Admissions and Recruitment at University of Arizona College of Medicine - Phoenix
Iris Gibbs, MD, Associate Dean of MD Admissions at Stanford University School of Medicine
Ann-Gel Palermo, DrPH, MPH, Associate Dean for Diversity & Inclusion in Biomedical Education at Icahn School of Medicine at Mount Sinai Center for Multicultural and Community Affairs
Michael Richards, Assistant Director of MD Admissions at Keck School of Medicine of University of Southern California
Jean Shelton, Director of Admissions and Student Life at Western Michigan University Homer Stryker MD School of Medicine
Carol Teener, Director of Admissions at University of Michigan School of Medicine

Learn what it takes to get into medical school directly from the source. This panel of medical school admissions officers and experts from across the country will answer questions about what medical schools are looking for in an applicant, common misconceptions, the interview process, and more. Learn all about how you can develop your application in order to be successful on your journey to medical school.

Choosing an Ethical Global Health Opportunity

Jessica Evert, MD, Executive Director of Child Family Health International

The landscape of short-term global health programs offer a myriad of opportunities, but how do you know if you have chosen the right one? In this session we focus on the right questions to ask when exploring the right international experience and some of the warning signs involved in spotting programs that either do not provide safety for the student or ethical in-country practices.

100% Free Medical School: Service for Scholarship

Major Samuel Tahk, Surgical Resident
Colonel (R) Salvador Renteria, Surgeon

Sed ut perspiciatis unde omnis iste natus error sit voluptatem accusantium doloremque laudantium, totam rem aperiam, eaque ipsa quae ab illo inventore veritatis et quasi architecto beatae vitae dicta sunt explicabo. Sponsored by the US Army.

The Diabetic Team: Medicine, Optometry, Pharmacy, & Public Health

Lorena Garcia, MPH, PhD, Associate Professor of Epidemiology at UC Davis School of Medicine Dept. of Public Health Sciences
Harry Green, OD, PhD, Assistant Clinical Professor at UC Berkeley School of Optometry
Sonal Phatak, MD, Assistant Professor at UC Davis School of Medicine
Greg Tovmassian, DPM, Podiatric Physician at Sacramento Foot and Ankle Center
Clipper Young, PharmD, Assistant Professor at Touro University College of Medicine

Interested in learning more about one of the most pertinent diseases in society today? Diabetes affects many people, young and old. The foundation of basic science knowledge is necessary to properly and holistically treat diabetic patients that exhibit symptoms in multiple specialties. The diabetic team plays a collaborative and integrative role in prevention and comprehensive management of diabetes. Come learn about how each of these specialties intertwine to best treat diabetic patients.

Gap Years: What Should I Be Doing?

Matthew Paranal, Medical Student at UC Davis School of Medicine
Ashley Schmidt, Medical Student at UC Davis School of Medicine
Maria Garnica, Medical Student at UC Davis School of Medicine
Cristina Monterroza, Medical Student at UC Davis School of Medicine

The time between completing your undergraduate degree and matriculating into medical school is a formative period in your pre-medical journey, but it can be hard to plan what to do in this time. Hear from current medical students about their experiences in taking a gap year (or years)!

Intro to Sports Medicine

Kenneth Kim, PT, DPT, CSCS, OCS, University of Southern California
Amol Saxena, DPM, President of American Academy of Podiatric Sports Medicine

Do you have a passion for sports but unsure how that translates to a career in healthcare? Are you interested in understanding behavior and applying it to leadership of sports? This workshop will provide the answers to these questions, and display a variety of fields within sports medicine, including physical therapy and podiatric medicine. You will learn the different roles of a healthcare provider in sports medicine, such as rehabilitation, injury prevention, and sports performance. Come and learn possible career opportunities and important topics in the sports medicine field!

BMGAP Series: Transforming Educational, Research, & Service Work to Scholarship

J.P. Sanchez, MD, PhD, Assistant Dean, Diversity and Inclusion, Associate Professor Emergency Medicine, RNJMS, President BNGAP, Inc

Learn how to be more competitive in the medical field through educational, research, or service scholarship!
AAMC Resources Can Help You Get Into Medical School

Visit the AAMC booth and online at aamc.org/students to learn about:

Exploring a Career in Medicine

• Aspiring Docs®
aamc.org/AspiringDocs
Reliable insights, information, and perspectives written by medical students and designed to empower anyone considering a career in medicine.

• Summer Health Professions Education Program (SHPEP)
shpep.org
A free summer enrichment program focused on improving access to useful resources designed for college students interested in the health professions.

Applying to Medical School

• Medical School Admission Requirements™
(MSAR®)
aamc.org/msar
An online database that enables you to browse, search, sort, save favorites, take notes, and compare information and data about U.S. and Canadian medical schools.

• Medical Minority Applicant Registry
aamc.org/medmar
A service that enhances admission opportunities for underrepresented minority or economically disadvantaged students.

• Medical College Admission Test® (MCAT®)
aamc.org/mcat
The AAMC provides information about registration, test day, scores, and test prep resources to help you prepare for the MCAT exam.

• American Medical College Application Service® (AMCAS®)
aamc.org/amcas
The AAMC’s centralized medical school application processing service. Most U.S. medical schools use AMCAS as the primary application method for their first-year entering classes.

• Fee Assistance Program
aamc.org/fap
This program assists those who would be unable to take the MCAT exam or apply to medical school without financial assistance. If a student is eligible, benefits include reduced MCAT registration fees, an AMCAS fee waiver, and more.

Paying for Medical School

• Financial Information, Resources, Services, and Tools (FIRST)
aamc.org/first
FIRST provides unbiased, reliable financial guidance and information, customized for medical students, to help you make sound financial decisions and borrow money wisely.

Learn more at aamc.org/students

Association of American Medical Colleges
115 Hutchison Hall

**Know Your Strengths as a Nontraditional Pre-Med Student**

Ryan Gray, MD, Advisor and Author at Medical School Headquarters

The nontraditional pre-med student has many advantages over traditional students. Because of your life experiences, medical schools understand that you have many strengths to bring to their next class. The difficulty is trying to put together your story to highlight all of your strengths. We'll discuss how, as a nontraditional premed, you can craft the best personal statement, put together the strongest extracurriculars, and how you can prepare for your medical school interview.

1322 Storer Hall

**LGBTQIA+ and Gender Health Panel**

Joel Maurer, MD, Associate Professor & Assistant Dean of Admissions at Michigan State University College of Human Medicine

Andy Shen, Medical Student at UC Davis School of Medicine

This panel of speakers will discuss disparities in health within the gender and sexual minority communities. Learn about advocating for inclusive healthcare and how the LGBTQIA+ community is served in the health care world.

1003 Giedt Hall

**The MCAT® Exam: What You Need to Know**

Lauren Siegel, MCAT Communication and Outreach Specialist at the Association of American Medical Colleges (AAMC)

Learn about the MCAT exam directly from the AAMC, the developers of the test. We will discuss the exam, what to expect on your test day, scoring, and how you can prepare. Have all your questions answered by the official source for the MCAT exam, so there will be no surprises.

1022 Life Sciences

**Insider Tips: Applying to Medical School with AMCAS®**

Tia Norrington, AMCAS Outreach Specialist at Association of American Medical Colleges

Let the American Medical College Application Service (AMCAS) help you make applying to medical school as smooth as possible! Have your questions answered and learn insider tips for a stronger application.

1204 Haring Hall

**Delivering Cultural Responsive Care in the 21st Century: An Imperative**

The rapidly changing demographics of the United States will require us to be proactive in facilitating conversations that will challenge us to examine our own cultural biases and stereotypes. The workshop's purpose is to understand how our own assumptions, biases, and stereotypes play an important role in our ability to provide culturally responsive care and to foster safe, welcoming, and respectful relationships. Presenters will engage attendees in small group discussions after reviewing a short Diversity & Health Series film. Additionally, presenters will provide an overview of the DHS certificate program at Des Moines University.
Student Community Center, Meeting Room E  

**Diversity in Medicine**  
Elizabeth Lyons, Director of Minority Recruitment at Michigan State University College of Human Medicine

Want to gain insight on current trends in medical education? Come join this workshop as we explore race/ethnicity demographic trends for medical schools. Also come learn specific experiences that will make you stand out as a medical school applicant.

1344 Storer Hall  
**Exploring Careers in Podiatric Medicine (DPM)**  
David Tran, DPM, Associate Director of Admission at California School of Podiatric Medicine at Samuel Merritt University  
David Jenkins, DPM, Midwestern University Arizona School of Podiatric Medicine  
Luis Rodriguez, DPM, Barry University School of Podiatric Medicine

Are you interested in learning about exclusively specialized treatment for the foot and the lower extremities of the body? Come learn about the many different career opportunities and specialties offered in the field of podiatric medicine! In this panel, you will be able to hear from dynamic set of podiatrists who will offer their insight on their individual specialties.

1002 Giedt Hall  
**Global Health Perspectives**  
Douglas Gross, MD, PhD, Clinical Professor of Pediatrics and Professor of Cell Biology & Human Anatomy at UC Davis

Global health focuses on many aspects and interconnections between the health care system and the society it serves. These factors include the interplay between disease processes, social circumstances, poverty, and historical contexts. Opportunities to serve in these communities seek to empower and transform those areas of the world in order to preserve community expertise while also incorporating education. This workshop is meant to introduce the concept of global health and the opportunities where you can serve people outside of your country.

7 Wellman Hall  
**BNGAP Series: Becoming a Competitive Applicant to Health Professional Graduate School and Academia**  
Stephanie Moses, PhD, Associate Dean for Faculty Development and CME, Associate Professor and Director of Family Medicine, Texas Tech Health Sciences Center

The path to academic medicine is less complicated than it seems. Come learn about the timeline to becoming academic faculty as well as how to be competitive and document your professional journey.

1007 Giedt Hall  
**MD-PhD: Is It for You?**  
Jose E. Cavazos, MD, PhD, The University of Texas Health Science Center at San Antonio

Are you trying to decide whether to pursue an MD, an MD-PhD, or a PhD? Do you want to learn the differences in conducting research and the training that is involved with each of these career paths? Come to this workshop to learn more about what these career paths have to offer.

123 Sciences Lecture Hall  
**Osteopathic Medicine (DO) Admissions Panel**  
Lena Bailey, PsyD, Michigan State University College of Osteopathic Medicine Office of Admissions  
Steven Davis, Director of Admissions at Touro University College of Osteopathic Medicine  
Gina Moses, Director of Admissions at New York Institute of Technology College of Osteopathic Medicine  
Stephanie Wurth, Director of Application Services, Recruitment, and Student Affairs at AACOM

Learn about what it takes to get into medical school directly from the source. This panel of medical school admissions officers and experts from across the country will answer questions about what osteopathic medical schools are looking for in an applicant, common misconceptions, the interview process, and more. Learn all about how you can develop your application in order to be successful on your journey to osteopathic medical school.

202 Wellman Hall  
**Post-Bacc Programs Panel**  
Susan Mulroney, PhD, Professor & Director of Special Master’s Program at Georgetown University  
Elba Muñoz, Assistant Director of Post-baccalaureate Premedical Certificate Program at Keck Graduate Institute  
Rachel Small, Co-Director of Pre-Health Post-Bac Program at SFSU

If you’re looking to take post-baccalaureate courses before applying to a health professional school, it’s important to choose the program that’s designed just for you. Hear representatives from a variety of post-bacc programs describe what makes their program unique.

26 Wellman Hall  
**Top 6 MCAT Myths Debunked**  
Petros Minasi, Author at Med School Pulse & Director of Pre-Health Programs at Kaplan Test Prep

You’ve heard lots of things about the MCAT, but not everything you’ve heard is true. Join this session and learn the top 6 myths of the MCAT so you don’t get tricked! Kaplan’s MCAT experts will debunk these myths and provide guidance on avoiding the most common pitfalls. You’ll leave this session with a robust plan for MCAT success.  
Sponsored by Kaplan Test Prep.

176 Chemistry Building  
**Using Medical School to Develop a Professional Identity**  
Tony Tsai, Director of Education Strategy at The University of Utah School of Medicine

Medical school is a time where students will transition from an academic focus to one focused on professional meaning and purpose. The session will explore this transition process and point out some key inflection points. We will also explain what students can do prior to medical school to successfully navigate this challenging professional process.
A MODERN CURRICULUM FOR PRODUCING MODERN PHYSICIANS

Shared Discovery is an innovative approach to medical education that is both student- and patient-centered, pairing a meaningful three-tiered clinical experience with the basic and clinical sciences throughout all four years of training. It rapidly immerses students in real clinical environments, providing an authentic trajectory of training and progressively increased responsibility across the entire experience.

**Want to Get Into Medical School? Here’s The “Secret Sauce”**
Douglas McLemore, Business Development Manager for Pre-Health Programs, Teacher, Tutor, & Trainer at The Princeton Review
We will target five key components and attributes every applicant needs to acquire on their pre-med journey! Come find out what you need to stand out and create your own “Secret Sauce” to maximize your chances for a medical school acceptance!
*Sponsored by The Princeton Review.*

1006 Giedt Hall
**What is Narrative Medicine?**
David Elkin, MD, Clinical Professor at UCSF School of Medicine Psychiatry & Medical Humanities
Sheiva Khayam-Bashi, MD, UCSF Medical Humanities Program
Nikhil Wadhwani, Program Coordinator & Workshop Facilitator at UCSF Medical Humanities Program
This workshop focuses on the importance of story telling and creative expression as a health professional. Several health professionals that use poetry and other forms of literature to share their unique experiences and patient stories will be featured.
1003 Giedt Hall
**What it Takes to Be a Surgeon Panel**
Arnold Almonte, DO, Plastic Surgeon at Almonte Center for Cosmetic Surgery
Benjamin Erickson, MD, Oculoplastic Surgeon & Clinical Assistant Professor at Stanford School of Medicine
Choosing a specialty is one of the most important decisions you can make in your career as a physician. This panel hosts distinguished physicians from all across the country who will share their journey into choosing surgery as a specialty. Panelists will discuss successes, challenges they may have faced, and everything it took for them to become surgeons. Bring your questions, too! There will be a brief Q&A segment as well.

**Don’t miss the Networking Reception!**
**ARC Pavilion 4 - 5 p.m.**

26 Wellman Hall
**Code Blue: Emergency Medicine**
Arthur Jey, MD, Director of Residency Development at Sutter Medical Center
In an environment demanding urgency, survival is at the forefront of anyone’s mind. The emergency room draws patients of diverse backgrounds 24 hours a day. Learn how emergency department physicians practice this multifaceted specialty commanding quick responses while balancing ethics, compassion, and cultural awareness.

123 Sciences Lecture Hall
**Demystify the Medical School Admissions Process!**
Adam Aponte, MD, Assistant Dean for Diversity and Inclusion at Donald and Barbara Zucker School of Medicine at Hofstra/Northwell
Gary Butts, MD, Chief Diversity and Inclusion Officer for the Mount Sinai Health System and Senior Associate Dean for Diversity Programs, Policy and Community Affairs for the Icahn School of Medicine at Mount Sinai
Hilda Hutcherson, MD, Associate Dean for Diversity Affairs at Columbia University College of Physicians & Surgeons
Mercedes Rivero, Assistant Dean for Admissions at Rutgers New Jersey Medical School
This workshop will review all the elements of the medical school application process including: the admissions process, gap year options, financial planning, research, holistic review, Post-Bacc vs. Masters programs, the application, the personal statement, meaningful experiences, relevance of your GPA & MCAT scores, personal attributes, and letters of recommendation. We will also allow for a robust Q&A session to answer all your questions.

1002 Giedt Hall
**Family Medicine & Primary Care**
Gail Feinberg, DO, Professor and Chair of Primary Care at Touro University College of Osteopathic Medicine
Lieutenant Colonel Oliver Lau, MD, Family Practice Physician for US Army
After matriculating to and progressing through medical school comes the decision of which specialty to choose. This panel of physicians will discuss working in Primary Care and the possibility of specializing in Family Medicine.

1007 Giedt Hall
**General Surgery in the Navy**
Chief Melissa Bond, SW/AW, Medical Programs Director for US Navy
Learn from Navy military experts how General Surgery in the Navy is achieved, and the opportunities available to you for serving and becoming a leader in this role.

212 Wellman Hall
**Getting Olympians Back on Track: Podiatric Sports Medicine**
Amol Saxena, DPM, Palo Alto Foundation Medical Foundation Group, Department of Sports Medicine
This workshop will feature Dr. Amol Saxena, President of the American Academy of Podiatric Sports Medicine, who will discuss his experience as a podiatrist who has worked with several Olympic athletes, companies like Nike, and as part of an orthopedic surgery team.
NATUROPATHIC MEDICINE WORKSHOPS

102 Hutchison Hall
Exploring Careers in Naturopathic Medicine
Leslie Fuller, ND, Associate Dean of Residency & Academics at National University of Natural Medicine
JoAnn Yanez, ND, MPH, Executive Director of Association of Accredited Naturopathic Medical Colleges (AANMC)
Integrative medicine is a growing sector in healthcare delivery. Learn about the career paths you can take as an ND and how the knowledge you learn in naturopathic medical school can transform your professional opportunities.

202 Wellman Hall
How to Master Your Scribe Application
Camilla Simon, Talent Acquisition Specialist at CEP America
Being a medical scribe is one of the best opportunities someone can pursue if they are looking to go into the medical field. Getting a scribe job is competitive, but possible! This workshop will break apart the scribe job description and will provide insight on the hiring process. Attendees will have the opportunity to work directly with a scribe recruiter to learn what qualities and characteristics are necessary to be a successful scribe! This workshop will also feature an interactive scribing activity. Sponsored by CEP America.

1006 Giedt Hall
Your Ticket to Medical School
Marcos Villa, Director of Student Affairs for the Graduate College of Biomedical Sciences at Western University of Health Sciences
It’s not all about grades! Attend this workshop to learn about your other options available to you to get into medical school. Sponsored by Western University of Health Sciences.

126 Wellman
Individualized Prep in a Standardized World: Meeting Specific Student Needs
Bryan Schnedeker, Academic Director and MCAT Guru at Next Step Test Prep
How can pre-med students ensure that they are optimizing their time and resources when it comes to MCAT preparation? Bryan Schnedeker, Next Step Test Prep’s MCAT Director, breaks down the best methods for creating the ideal MCAT study plan based around score goals, strengths and weaknesses, timeline, and budget. From content review to strategy and practice, learn step-by-step what works for you leading up to test day. Sponsored by NextStep Test Prep.

7 Wellman Hall
BNGPA Series: Threads-Resume, CV, and Application
Reena Thomas, MD, PhD, Clinical Assistant Professor, Director of Diversity and Inclusion, Department of Neurology, Stanford University,
Stephanie Moses, PhD, Associate Professor and Director of Family Medicine, Texas Tech Health Sciences Center.
Your application, CV, and resume are vital. Learn the best practices for documenting activities, application submission tips, and more!

1022 Life Sciences Building
Treating Veterans
Major Samuel Tahk, Colonel (R) Salvador Renteria
Learn what treatment looks like for our US Armed Forces personnel, current limitations on treating veterans and what steps can be taken to improve healthcare for them.

1227 Haring Hall
Physician Assistant vs. Medicine Panel
Gloria Cheng, MPAS, PA-C, Anthony Gauthier, PA-C
Jed Grant, MPAS, PA-C, Assistant Professor and Principal Faculty at University of the Pacific, Andy Shen, Medical Student at UC Davis School of Medicine, Rahnea Sunseri, MD, Assistant Professor at University of the Pacific
What is the difference between a PA and a physician? This panel of doctors and PAs will discuss common questions that pre-health students have about life as a PA vs. a physician, and will outline expectations, education and specialty timelines, as well as the responsibilities and rewards of each career.

1342 Storer Hall
Acupuncture and Traditional Chinese Medicine
Dr. Jonathan Wheeler, DAOM, Acupuncturist at Wu’s Healing Center in San Francisco
This workshop will go over a general timeline on how to become involved with Chinese medicine, including acupuncture. Attendees will get a first-hand perspective of what it’s actually like to practice in this field.
Fulfilling your Dreams of Becoming a Physician Begins at The George Washington University!

The one-year Post-Baccalaureate Pre-Medicine Certificate program at the George Washington University School of Medicine and Health Sciences offers a unique opportunity to build a strong foundation towards a rewarding career path.

GW provides future physicians with:
- Foundational coursework required by U.S. medical schools
- Standardized test preparation
- Access to real-world experiences for medical school applications

This program is designed to support career changing students who need to complete the pre-requisite courses to apply to medical school.

An Intro to Naturopathic Medicine and the Approach to the Pediatric Patient
Amanda Watters, ND, Resident Physician and Lead Pediatric Clinician
Naturopathic Medicine is a distinct system of healthcare; an art, science, philosophy and practice of medicine that focuses on prevention and treating the root cause of disease. NDs are trained as primary care providers who focus on integrative medicine and utilize a wide range of therapeutic modalities in delivering optimal and individualized patient care. Join us as we discuss the education and career opportunities for naturopathic physicians, as well as highlight a few of the clinical applications to common pediatric conditions.

1:30-2:30 PM
1 Wellman Hall
Naturopathic Medicine Admissions Panel
Alison Scott Dean, Director of Admissions Recruitment at Bastyr University
JoAnn Yanez, ND, MPH, Executive Director of Association of Accredited Naturopathic Medical Colleges (AANMC)
What qualities, experiences, and academics do naturopathic medical schools look for in applicants? Come to this workshop to learn directly from the source!

2:45 - 3:45 PM
115 Hutchison Hall
What is Naturopathic Medicine and Why Do We Need It Now?
Arianna Stauch, ND, Dean of the Bastyr University School of Naturopathic Medicine
NURSING WORKSHOPS

11:00 AM - 12:00 PM

2205 Haring Hall
What It Takes to Be a Nurse
Bob Patterson, DNP, MSN, RN, Director of Versant Holdings
Katherine Kenny DNP, RN, Associate Dean of Academic Affairs at Arizona State University College of Nursing and Health Innovation
It takes more than science courses and wanting to talk to people to be a good nurse. Come hear from nurses about their journeys and what they believe it takes to be successful in the nursing profession. Speakers will discuss interpersonal and social skills, attributes, experiences, and knowledge students should possess when pursuing a nursing degree. Bring your questions!

12:15 - 1:15 PM

2205 Haring Hall
Nursing Admissions Panel
Rhonda Flenoy Younger, Director of Admissions-Recruitment-Outreach at UCLA School of Nursing
Amy Sturrock, Academic Advisor of Undergraduate Programs at University of Colorado, Denver College of Nursing
Molly Jackson, DNP, Case Western Reserve University School of Nursing
Elizabeth Rice, PhD, RN, Associate Dean for Clinical Education and Practice, Director for the Master of Science Nurse Practitioner Degree Program and Clinical Professor at UC Davis Betty Irene Moore School of Nursing
What constitutes a strong applicant for nursing school? Gain insight from deans of admissions about their admissions process and get advice on how to make your application to nursing schools strong.

1:30 - 2:30 PM

234 Wellman Hall
UCSF School of Nursing: Pathways, Programs, and Opportunities
Sergio Saenz, Director of Outreach and Recruitment
As a world-renowned health science research campus, the UC San Francisco School of Nursing fosters excellence, diversity, and innovation in everything we do. Come learn about our variety of degree programs including MEPN, Masters, PhD, and the new DNP. Participants will gain valuable information on admissions requirements, application best practices, and all the exciting specialty areas UCSF Nursing has to offer. Sponsored by UCSF School of Nursing.

2205 Haring Hall
Leadership in Healthcare Panel
Lars Berglund, MD, PhD, Interim Dean at the UC Davis School of Medicine
Heather M. Young, PhD, RN, Associate Vice Chancellor for Nursing & Dean and Professor at Betty Irene Moore School of Nursing
Do you have aspirations of becoming a leader in healthcare? Don’t miss this workshop! This is your chance to hear two professionals’ paths to becoming leaders in healthcare!

1:30 - 2:30 PM

115 Hutchison Hall
Technology in Nursing
Christina Roth-Vyhnal, MSN, RN, Nursing Program Assistant at Hiram College
How will the changing landscape of technology in healthcare affect your future career as a nurse? This workshop will discuss the importance of being a technologically-competent nurse, the use of simulation in nursing education, and how mindful use of technology can prevent it from interfering with the personal connection between provider and patient.
NOW, MORE THAN EVER, nurses and physician assistants are needed to fill the gaps in health care. With a master’s degree from the Betty Irene Moore School of Nursing you gain entry to one of today’s fastest-growing and best-paid health professions.

Programs at the Betty Irene Moore School of Nursing blur the line between classroom learning and clinical education.

Using today’s most advanced learning approaches, you will develop clinical skills in real-world scenarios as well as leadership skills to guide teams. See which program is right for you:

**Master’s Entry Program in Nursing** — Begin your career as a health leader and work as part of a health care team as a registered nurse through our Master’s Entry Program in Nursing. This program prepares new nurses as leaders in quality and safety, advocates for diverse patient populations and agents of change for healthier communities.

**Physician Assistant Studies Program** — Physician assistants are the providers of choice for millions. This career is projected to be one of the fastest-growing health professions during the next decade. UC Davis has trained more than 900 physician assistants over the past 40 years.
Redefine boundaries. Expand perspectives. Explore your purpose.

2205 Haring Hall
Accelerated BSN vs. Masters Entry Level Programs: Understanding the Differences
Susan Watson, PhD, ADN, BSN, MSN, Roseman University
Jenna Shaw-Battista, PhD, RN, NP, Associate Professor & Director for UC Davis Betty Irene Moore School of Nursing MEPN

There isn’t one specific path you have to take to become a nurse. In fact, the nursing profession offers different levels of degrees you may pursue in order to achieve a career in nursing. Each path requires different workload, pace, and curriculum that can all lead to the same goal. This workshop discusses the two most common degree options at nursing schools, and highlights the pros and cons of each.

NUTRITION WORKSHOPS

176 Chemistry Building
Becoming a Dietician
Joan S. Frank, RDN, Assistant Program Director of Dietetics at UC Davis Department of Nutrition

Curious about the life of a dietician? This workshop goes into detail on the schooling you’ll need to take to become a registered dietician, examples of work life, and more!

2:45 - 3:45 PM

234 Wellman Hall
How to Become a Certified Nutritionist, Athletic Team Chiropractor or a Team Psychologist
Patrick Browne, EdD, Special Assistant to the President at University of Western States

The University of Western States will talk about the basic requirements for becoming a Certified Nutritionist in Functional Medicine, Athletic Team Chiropractor or a Team Psychologist. Come join our workshop where we’ll review the academic requirements and certifications necessary to enter into these highly specialized fields.

Sponsored by University of Western States.

OCCUPATIONAL THERAPY WORKSHOPS

115 Hutchison Hall
Physical Therapy vs. Occupational Therapy Panel
Elizabeth Carley, OTD, OTR/L, Director of Admissions and Assistant Professor of Clinical Occupational Therapy at USC Chan Division of Occupational Science and Occupational Therapy
Jane E Sullivan, PT, DHS, Associate Professor of Physical Therapy and Human Movement Sciences at Feinberg School of Medicine at Northwestern University

Physical therapist and occupational therapists both perform hands-on rehabilitative work to help patients with injuries or disabilities. What are some differences and similarities between these two fast-growing professions? How is physical therapy and occupational therapy different or similar in terms of job duties, education, and practice settings? Come and learn more about each profession, have your questions answered, and find out which profession is the right fit for you!

1344 Storer Hall
Occupational Therapy Admissions Panel
Elizabeth Carley, OTD, OTR/L, Director of Admissions and Assistant Professor of Clinical Occupational Therapy at USC Chan Division of Occupational Science and Occupational Therapy

Want to learn more about occupational therapy programs and the admissions process? If you are interested in a career in this field, attend this panel and get to know what the requirements are, how to apply, and tips on how to fill out your application. Learn the inside details and make yourself a competitive applicant!

Don’t miss the Networking Reception!

Speak one-on-one with speakers and exhibitors from today! Light refreshments will be served.

ARC Pavilion 4 - 5 p.m.
OTHER GRADUATE PROGRAM WORKSHOPS

119 Wellman Hall
Health Informatics Panel: Exploring Careers and Education Programs
Dr. Alberto Odor, MD, MS, UC Davis School of Medicine Health Informatics Program
Annie Knill, Assistant Director of University of Michigan Health Informatics Program
Learn about the career options available to you as a health informatics specialist, what the field is about, and the path to becoming a health informatics specialist.

216 Wellman Hall
A Day in the Life of an Optometrist
Harry Green, OD, PhD, Assistant Clinical Professor at UC Berkeley School of Optometry
Curious about what a typical day as an optometrist looks like? Come to this workshop to hear from an actual optometrist about what you can expect. You’ll also learn what it takes to become an optometrist and what you can do now to prepare your application.

OTHER GRADUATE PROGRAM WORKSHOPS

234 Wellman Hall
How to Become a Certified Nutritionist, Athletic Team Chiropractor or a Team Psychologist

The ARC-PA has granted Accreditation-Provisional status to the University of the Pacific Master of Physician Assistant Studies Program sponsored by the University of the Pacific. Accreditation-Provisional is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program’s ability to meet the ARC-PA Standards or when a program holding Accreditation-Provisional status appears to demonstrate continued progress in complying with the Standards as it prepares for the graduation of the first class (cohort) of students. Accreditation-Provisional does not ensure any subsequent accreditation status. It is limited to no more than five years from matriculation of the first class.
Workshop Descriptions: Physical Therapy

202 Wellman Hall
How to Master Your Scribe Application
Camilla Simon, Talent Acquisition Specialist at CEP America
Being a medical scribe is one of the best opportunities someone can pursue if they are looking to go into the medical field. Getting a scribe job is competitive, but possible! This workshop will break apart the scribe job description and will provide insight on the hiring process. Attendees will have the opportunity to work directly with a scribe recruiter to learn what qualities and characteristics are necessary to be a successful scribe! This workshop will also feature an interactive scribing activity.
Sponsored by CEP America.

1227 Haring Hall
Physician Assistant vs. Medicine Panel
Gloria Cheng, MPAS, PA-C
Anthony Gauthier, PA-C
Jed Grant, MPAS, PA-C, Assistant Professor and Principal Faculty at University of the Pacific
Andy Shen, Medical Student at UC Davis School of Medicine, Rahnea Sunseri, MD, Assistant Professor at University of the Pacific
What is the difference between a PA and a physician? This panel of doctors and physician assistants will discuss common questions that pre-health students have about life as a PA vs. a physician, and will outline expectations, education and specialty timelines, as well as the responsibilities and rewards of each career.

PHYSICAL THERAPY WORKSHOPS

115 Hutchison Hall
Physical Therapy vs. Occupational Therapy Panel
Elizabeth Carley, OTD, OTR/L, Director of Admissions and Assistant Professor of Clinical Occupational Therapy at USC Chan Division of Occupational Science and Occupational Therapy
Jane Sullivan, PT, DHS, Associate Professor of Physical Therapy and Human Movement Sciences at Feinberg School of Medicine at Northwestern University
Physical therapists and occupational therapists both perform hands-on rehabilitative work to help patients with injuries or disabilities. What are some differences and similarities between these two fast-growing professions? How is physical therapy and occupational therapy different or similar in terms of job duties, education, and practice settings? Come and learn more about each profession, have your questions answered, and find out which profession is the right fit for you!

1:30 - 2:30 PM

1322 Storer Hall
Physical Therapy Admissions Panel
Christopher DaPrato, PT, DPT, Assistant Clinical Professor at UCSF/ San Francisco State University DPT Program
Jane Sullivan, PT, DHS, Associate Professor of Physical Therapy and Human Movement Sciences at Feinberg School of Medicine at Northwestern University
How do you become a strong applicant for physical therapy programs? How do you set yourself apart from other similar applicants? Come and see what you can do to strengthen your application! This admissions panel will host a diverse group of admissions directors who will answer popular questions that prospective students have when applying to different physical therapy programs. Come and get all your questions answered!

1002 Giedt Hall
Intro to Sports Medicine
Kenneth Kim, PT, DPT, Instructor of Clinical Physical Therapy at USC Division of Biokinesiology and Physical Therapy
Amol Saxena, DPM, President of American Academy of Podiatric Sports Medicine
Do you have a passion for sports but unsure how that translates to a career in healthcare? Are you interested in understanding behavior and applying it to leadership of sports? This workshop will provide the answers to these questions, and display a variety of fields within sports medicine, including physical therapy and podiatric medicine. You will learn the different roles of a healthcare provider in sports medicine, such as rehabilitation, injury prevention, and sports performance. Come and learn possible career opportunities and important topics in the sports medicine field!

2:45 - 3:45 PM

Exploring Careers in Physical Therapy
Daniel Barragan, DPT, Physical Therapist at Physical Edge
Kenneth Kim, PT, DPT, Instructor of Clinical Physical Therapy at USC Division of Biokinesiology and Physical Therapy
Michael Kwong, PTA, Physical Therapy Assistant at Physical Edge
Want to learn more about the different career paths available as a physical therapist? What are the different types of settings a physical therapist can thrive in? This workshop offers insight on the variety of practice settings and specialties within physical therapy! From treating ankle injuries to working in geriatrics, don’t miss the opportunity to learn more about the profound and fulfilling duties of a physical therapist.
Graduate education for those with a passion to serve.

PUBLIC HEALTH WORKSHOPS

1002 Giedt Hall
**The Public Health Perspective**
Jill Stephenson, MPA, Academic Program Manager

Have you considered a Master of Public Health (MPH) or are you completing a graduate degree before applying to a pre-professional program? This session will discuss how a career and background in public health, through an MPH, can impact community health and strengthen your application and future work as a clinician.

*Sponsored by University of Utah Health.*

179 Chemistry Building
**Long View Career Planning: Choosing the Right Health Career**
Martin MacDowell, DrPH, MBA, Research Professor at University of Illinois at Rockford Colleges of Medicine and Pharmacy

This workshop will discuss the importance of thinking early about what you are seeking from your health career choices and how a variety of factors including degree choices, schools you attend, jobs you take, and networking, influence you achieving your self-defined "career success." Examples from medicine, pharmacy, and health services administration will be provided.

1001 Giedt Hall
**Masters of Public Health (MPH) Admissions Panel**
Elena O. Lingas, DrPH, Assistant Director & Associate Professor of Touro University Public Health Program
Tracie Seward, Manager of Student Services at Association of Schools & Programs of Public Health
Dru Bhattacharya, Director of MPH Program at University of San Francisco
Laura Erskine, PhD, Director of MPH Program in Health Policy & Management at UCLA Fielding School of Public Health

Hoping to pursue a Master of Public Health but unsure about your application process, prerequisites, and types of programs available? This panel of public health admissions representatives from various public health programs can address your questions and give insight on how to prepare your MPH application.

ARC Pavilion 4 - 5 p.m.

**Don’t miss the Networking Reception!**

Join other attendees in this opportunity to speak one-on-one with speakers and exhibitors from today!

12:15 - 1:15 PM

3 Kleiber Hall
**The Diabetic Team: Medicine, Optometry, Pharmacy, & Public Health**
Lorena Garcia, MPH, PhD, Associate Professor of Epidemiology at UC Davis School of Medicine Dept. of Public Health Sciences
Harry Green, OD, PhD, Assistant Clinical Professor at UC Berkeley School of Optometry
Sonal Phatak, MD, Assistant Professor at UC Davis School of Medicine
Greg Tovamassian, DPM, Podiatric Physician at Sacramento Foot and Ankle Center
Clipper Young, PharmD, Assistant Professor at Touro University College of Medicine

Interested in learning more about one of the most pertinent diseases in society today? Diabetes affects many people, young and old. The foundation of basic science knowledge is necessary to properly and holistically treat diabetic patients that exhibit symptoms in multiple specialties. The diabetic team plays a collaborative and integrative role in prevention and comprehensive management of diabetes. Come learn about how each of these specialties intertwine to best treat diabetic patients.
Public health consists of several specialty areas that address the physical, mental and environmental health concerns of communities and populations at risk for disease and injury. Areas of study range from epidemiology and statistics to health promotion and global health. Come learn about this broad, exciting field and where your interests may fit in!

Visit the Pre-Health Fair to speak to representatives from public health schools & programs from across the country!

Hutchison Field 10 a.m. - 4 p.m.

**VETERINARY MEDICINE WORKSHOPS**

**11:00 AM - 12:00 PM**

106 Wellman Hall

**Veterinary Admissions Panel**

Eloise Jillings, BVSc, MVS, Associate Dean of Admission and Students at Massey University

Applying to veterinary school? Don’t miss this workshop! Admissions representatives from veterinary schools will cover commonly discussed questions when deciding where to apply and attend for your veterinary education, as well as what to look for when choosing the right fit for you. Panelists will also address student body diversity, specialties within veterinary medicine, location, cost, and extracurricular opportunities available!

---

**12:15 - 1:15 PM**

212 Wellman Hall

**Where Can a DVM Take You?**

Meet Dr. Mike Zareski, a Ross University School of Veterinary Medicine Alumnus who graduated in 2002. Dr. Zareski has been the owner of the Western Veterinary Group since 2008 and is based in Southern California. Come and learn about Ross’ accredited Doctor Veterinary Medicine degree program, details about Dr. Zareski’s experience at our university, his current career path as a practice owner, and many other opportunities that a DVM degree can offer you after graduation. Bring your questions, as Dr. Zareski will be happy to answer them regarding your future as a veterinarian.

Sponsored by Ross University School of Veterinary Medicine.

#11 in the world

in the 2017 QS World University rankings by subject

Sydney School of Veterinary Science

Veterinarians are at the frontline in predicting epidemics of human diseases.

Become a career-ready graduate with skills not only in managing animal health and disease; but in advancing animal, human and environmental health and welfare locally and globally.

sydney.edu.au/vetscience
BEYOND ORDINARY.

At Ross University School of Veterinary Medicine, our passion is training students to join our network of 4,000+ alumni and become the next generation of career-ready, compassionate veterinarians and researchers. Discover a world of possibilities in veterinary medicine.

EDUCATION THROUGH EXPERIENCE
Our immersive curriculum is taught by a diverse faculty from all over the globe. You’ll experience hands-on animal interaction early on, including real-world clinical experience at our AAHA-accredited campus veterinary clinic.

THE WORLD IS YOUR CLASSROOM
Global learning opportunities include externship programs and clinical training sites at 32 AVMA accredited schools in the US, UK, Canada, Australia, New Zealand and Ireland.

A COMMITMENT TO ONE HEALTH
Go beyond your DVM and explore the complex interplay of altered environments and infectious diseases as an increasing threat to agriculture, public health and endangered species, on a global basis through our online MSc One Health degree program.

The College of Agricultural and Environmental Sciences has helped shape California and the world in monumental ways for more than 100 years. We continue to remain dedicated to solving critical issues with food, water, energy, climate change, conservation, and human health to improve the quality of life throughout California, the nation and the world.
106 Wellman Hall
**Veterinary Pathology and Problem-Based Learning**

Eloise Jillings, BVSc, MVS, Associate Dean of Admission and Students at Massey University

Dr. Eloise Jillings teaches veterinary clinical pathology at Massey University in New Zealand. In this interactive workshop, participants will initially learn more about the pathways to becoming a veterinary pathology specialist. Then, workshop participants will engage with pathology case studies ranging from inflammation to neoplasia (with the occasional bizarre case).

*Sponsored by Massey Veterinary School.

2:45 - 3:45 PM

106 Wellman
**Beyond the Clinic: Opportunities in One Health Training and Research**

Amanda Berrian, DVM, MPH, PhD, Research Associate at the UC Davis One Health Institute

Nistara Randhawa, Epidemiology PhD Candidate at the UC Davis One Health Institute

The One Health Initiative is a movement to forge co-equal, all inclusive collaborations between physicians, osteopathic physicians, veterinarians, dentists, nurses and other scientific-health and environmentally related disciplines. Come learn how all of these fields are ultimately tied together and how you, a potential veterinarian, can contribute to this initiative.

*Sponsored by UC Davis School of Veterinary Medicine.

216 Wellman Hall
**Application Horror Stories**

Robin Johnson, Assistant Director for the Office of University Recruitment and Strategic Enrollment Management at Western University of Health Sciences

Learn about the do's and don'ts when applying for health professions programs. We're going to tell you stories of mistakes others have made so you can avoid them! This workshop will cover everything from application don'ts to interview "no-no's."

*Sponsored by Western University of Health Sciences.
