About our conference

Over the last **twenty-one years**, the Pre-Health Conference at UC Davis has **grown to be the largest pre-health conference in the nation** for future health professionals. With approximately 6,000 pre-health students at UC Davis and thousands more across California, our goal is to support the nation's future health professionals as we continue our **in-person event**.

California's universities and community colleges have the most diverse student body in the nation – close to 65% of those enrolled in our academic institutions are considered underrepresented in medicine (URM, as defined by AAMC). This group of culturally competent and academically strong students is suited to one day serve the diverse population of our nation.

The Conference is self-supporting and does not receive financial support from UC Davis. Our students need your help to continue to provide this amazing conference for like minded pre-health students. Please consider investing in our pre-health students by joining the sponsor team for the 21st Annual Pre-Health Conference. We anticipate hosting up to **3,000 attendees from across the nation**, including pre-health students and pre-health advisors.
